A General Banking Business transacted throughout the Dominion of Canada.

SEASICKNESS AND TRAINSICKNESS.

MOTHERSILL'S SEASICK REMEDY represents the result of four years careful, painstaking investigation and scientific research, based on scientific principles and careful clinical tests. The secret of its success lies in the fact that it is not a temporary relief, but it absolutely prevents seasickness by maintaining the proper equilibrium of the organs that cause seasickness.

The popular theory that seasickness is due to a deranged stomach, a weak stomach, or to stomachic conditions is erroneous. In fact most seasick remedies on the Market are utter failures because they aim to correct stomach conditions. MOTHERSILL'S SEASICK REMEDY will cure seasickness when all other remedies fail, and it will positively prevent seasickness if taken in time.

On English Channel, Irish Sea and Atlantic.

MOTHERSILL'S SEASICK REMEDY has been through every possible test that could be made within the past three years. In the fall of 1908, Mr. Mothersill gave a series of demonstrations on the English Channel, Irish Sea, and Baltic. It has been said that MOTHERSILL'S SEASICK REMEDY would prove of no value in these places, where it would be put to the severest test. We proved the fallacy of this statement by practical demonstrations, the tests being most successful. Equally fortunate were the more extended results experienced by Transatlantic parties, such as the International Sunday School Association trip from Boston to Rome and back, consisting of 600 persons; the Canadian Bisley Team, under Lieut.-Colonel Labelle; the American Olympia Team and many others. These large parties always comprise many who are susceptible to seasickness, who by the use of MOTHERSILL'S SEASICK REMEDY were able to take the voyage without any unpleasant symptoms. In fact the results of these various demonstrations were so successful that they were highly commented upon at the time with long editorial articles by the leading British, American, Canadian, and Scandinavian newspapers.

BISHOP TAYLOR-SMITH, CHAPLAIN-GENERAL of the BRITISH forces, says:—"I have ordered at various times supplies of MOTHERSILL'S SEASICK REMEDY and found it most effective."

Write us for Booklet, Press editorials and testimonials from prominent people.

GUARANTEE.

We guarantee the successful action of Mothersill's Seasick Remedy in every case when directions are followed or refund money.

FOREWORD.

In the preparation of the first edition of The Canadian Who's Who, the desire has been to make it thoroughly representative of the leading men and women of Canada, whether resident in their own land or abroad. If, perchance, the biography of some prominent Canadian has been omitted, the error must not, in all cases, be ascribed to the editor, inasmuch as some gentlemen, to whom circulars were sent, failed to answer them, and consequently their biographies could not be included.

Thanks are due to Capt. Chambers, editor of the Canadian Parliamentary Guide; Dr. Doughty, Dominion Archivist; Dr. Benjamin Sulte, Dr. Wilfred Campbell, and other gentlemen for valuable data furnished.

Suggestions for future issues, corrections of errors, etc. will be gratefully appreciated by

THE EDITOR.

 A Presbyterian. A Liberal. *Address*:
 Hamilton, Ont.

The Royal Military College of Canada

THERE are few national institutions of more value and interest to the country than the Royal Military College of Canada. Notwithstanding this, its object, and the work it is accomplishing, are not sufficiently understood by the general public.

The College is a Government institution, designed primarily for the purpose of giving instruction in all branches of military science to cadets and officers of the Canadian Militia. In fact it corresponds to Woolwich and Sandhurst.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and there is in addition a complete staff of professors for the civil subjects which form such an important part of the College course. Medical attendance is also provided.

Whilst the College is organized on a strictly military basis the cadets receive a practical and scientific training in subjects essential to a sound modern education.

The course includes a thorough grounding in Mathematics, Civil Engineering, Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the College is one of the most valuable features of the course, and, in addition, the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures health and excellent physical condition.

Commissions in all branches of the Imperial service and Canadian Permanent Force are offered annually.

The diploma of graduation, is considered by the authorities conducting the examination for Dominion Land Surveyor to be equivalent to a university degree, and by the Regulations of the Law Society of Ontario, it obtains the same exemptions as a B.A. degree.

The length of the course is three years, in three terms of 9½ months each.

The total cost of the course, including board, uniform, instructional material, and all extras, is about \$800.

The annual competitive examination for admission to the College, takes place in May of each year, at the headquarters of the several military districts.

For full particulars regarding this examination and for any other information, application should be made to the Secretary of the Militia Council, Ottawa, Ont.; or to the Commandant, Royal Military College, Kingston, Ont.

SYNOPSIS OF Canadian North-West Land Regulations

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan, or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price, \$3.00 per acre. **Duties**—Must reside six months in each of six years from date of homestead entry (including the time required to earn homestead patent), and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price, \$3.00 per acre. **Duties**—Must reside six months in each of three years, cultivate fifty acres, and erect a house worth \$300.00.

W. W. CORY,
Deputy of the Minister of the Interior.

METROPOLITAN

LIFE INSURANCE COMPANY

(Incorporated by the State of New York—Stock Company)

The Company OF the People, BY the People, FOR the People.

Amount of Canadian Securities Deposited with the Dominion
Government for the Protection of Policyholders in Canada over

\$7,055,000

A REASONABLE INDICATION OF THE DESERVED POPULARITY

of its plans and of faith in its management may be fairly claimed in the number of Metropolitan policies in force. It exceeds by three millions the entire population of the Dominion of Canada. Nearly three hundred thousand Canadians of all classes are policyholders in the Metropolitan. It has on deposit with the Government of the Dominion of Canada, in Canadian securities, dollar for dollar of its Canadian liabilities. In 1909, it wrote in Canada as much new insurance as any two other life insurance companies:—Canadian, English or American.

SIGNIFICANT FACTS.

This Company's policy-claims paid in 1909 averaged in number, one for every sixty-three seconds of each business day of 8 hours each, and, in amount, \$140.81 a minute the year through.

The Daily Average of the Company's Business during 1909.

456 per day in number of claims Paid.

6,536 per day in number of Policies Issued.

\$1,463,755.00 per day in New Insurance placed and paid for.

\$183,403.75 per day in payments to Policyholders and addition to Reserve.

\$132,172.72 per day in Increase of Assets

Paid to Policyholders since Organization, plus the amount now invested for their Security, **\$537,223,523.83**

Amount of Outstanding Insurance, **\$2,041,951,700.00**

In its Ordinary Department policies are issued for from \$1,000 to \$1,000,000 on individual lives, premiums payable annually, semi-annually and quarterly. In its Industrial Department, policies are issued on all the insurable members of the family for weekly premiums.

Full particulars regarding the plans of the Metropolitan may be obtained of its Agents in all the principal cities of the United States and Canada.

NELSON'S PERPETUAL LOOSE-LEAF ENCYCLOPÆDIA and

Bureau of Research for Special information

THE NELSON LOOSE LEAF ENCYCLOPÆDIA is the only reference work that is always up to date, giving the latest information on all of its 70,000 subjects and 1,000,000 topics. The 500 maps are always revised as necessity warrants, and the 7,000 illustrations are pertinent to the text.

THREE PERMANENT EDITORIAL BOARDS.—One in Edinburgh, one in Montreal, and one in New York. The Editor-in-chief is John H. Finley, LL.D., President of the College of the City of New York; the Canadian Editor is William Peterson, LL.D., C.M.G., Principal of McGill University, and the European Editor is George Sandeman, M. A., of Edinburgh, Scotland. Under the direction of these editorial chiefs, are upwards of 1,000 contributors, foremost in the world of Science, Literature, the Arts and Commerce. These boards are engaged the year round in making Nelson's always abreast of the times.

NELSON'S BUREAU OF RESEARCH is the only institution of its kind in existence, and WILL ANSWER QUESTIONS OF SUBSCRIBERS ON ANY SUBJECT—FREE. Every purchaser of Nelson's Encyclopædia obtains a complete reference library, and the service of three great International Editorial Boards to furnish any additional information required.

NELSON'S IS ALWAYS NEW, it cannot grow old, it precludes the necessity of ever buying any other book of reference.

All articles in Nelson's are clear, concise in treatment and embody the results of the very latest scholarship and research. For example, articles on Flying Machines, Mono Railways, Wireless Telegraphy, Wireless Telephony, Dreadnoughts and Submarines, Trusts and the Cost of Living, Conservation of Natural Resources, Concrete and Steel and Iron Construction; Christian Science and Psychotherapy, Hookworm, Sleeping Sickness, Pellagra, Tuberculosis, and hundreds of other subjects ARE NOT FOUND IN ANY OTHER ENCYCLOPÆDIA.

N.B.—NELSON'S PERPETUAL LOOSE-LEAF ENCYCLOPÆDIA has so completely revolutionized encyclopædia-making and put out of date the old-fashioned, regularly bound encyclopædias that we are constantly receiving inquiries asking us to make an allowance on old encyclopædias to apply as part payment on NELSON'S LOOSE-LEAF ENCYCLOPÆDIA. We have therefore prepared a price list stating the amount allowed as part payment. The price list will be mailed upon request.
